redeighteen architects

redeighteen architects is a distinctive blend of architecture and project management. Based in Melbourne, we have grown through providing a thorough and personalised service that inspires repeat clients. Operating around Australia, we are experienced with Commercial, Industrial and Residential projects.

More than just a design firm, redeighteen architects also operates a specialised project management division; redeighteen projects. redeighteen projects is a hands on project management company that ensures your build process is as smooth as possible.

Contact our team for more information about how we can best serve you on your new project.
